(Amounts expressed in thousands of United States Dollars unless otherwise stated)

1. NATURE OF OPERATIONS

Cansortium Inc. was incorporated under the laws of the Province of Ontario, Canada pursuant to the Ontario Business Corporations Act. ("OBCA") on August 31, 2018. The Company's registered office is located at 295 The West Mall, Suite 600, Toronto, Ontario, M9C 4Z4 and its head office is located at 82 North East 26th Street, Suite 110, Miami, Florida, United States, 33137.

On March 22, 2019, the Company acquired all shares of Cansortium Holdings LLC, ("Cansortium Holdings"), in connection with the Company's initial public offering and listing on the Canadian Securities Exchange. The Company's shares are listed on the Canadian Securities Exchange ("CSE") under the trading symbol "TIUM.U" and on the OTCQB Venture Market under the trading symbol "CNTMF".

The Company, through its subsidiaries, is licensed to produce and sell medical cannabis in Florida and Texas and is licensed to sell medical cannabis in Pennsylvania.

The Company's medical cannabis products are offered in oral drops, capsules, suppositories, topicals, syringes, dried flower, pre-rolls, cartridges and edibles. All of its products are marketed under the Fluent™ brand name, which was launched in May 2019. Prior to the launch of the Fluent brand the Company had operated under the Knox Medical™ brand. In Pennsylvania, the Company's product portfolio is comprised of a variety of third-party branded medical cannabis products.

During the year ended December 31, 2019, the Company discontinued its operations in Puerto Rico, Canada and Colombia and, as a result, classified the assets and liabilities associated with these operations as held for sale and investment held for sale, measured at the lower of carrying amount and fair value less costs to sell, and has disclosed such assets separately in the statement of financial position. Discontinued operations are excluded from the results of continuing operations and are presented as a single amount in the consolidated statements of operations. The Company completed the sale of its Puerto Rican business on April 28, 2020, and completed the sale of its Canadian business on May 29, 2020. Additionally, on January 22, 2020, the Company reduced its ownership of Cansortium Colombia S.A.S (Cansortium Colombia) to 50% (see Notes 7 and 16 c.) and classified its Cansortium Colombia investment held for sale separately in the statement of financial position.

All of the Company's operations are in one segment, the production and sale of medical cannabis. All revenues for the three and six months ended June 30, 2021, and 2020, were generated in the United States.

These condensed interim consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and settlement of liabilities in the normal course of business as they become due for the foreseeable future.

The Company has recorded a net loss of \$30,115 on its consolidated statement of operations, a negative cash flows from operations of \$32,569 during the six months ended June 30, 2021, and, as of that date, the Company had an accumulated deficit in the amount of \$168,723. These events or conditions indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern.

1. NATURE OF OPERATIONS (Continued)

To date, the Company has been successful in obtaining enough funding for operating and capital requirements primarily through equity and debt financings. The ability of the Company to continue as a going concern is dependent upon its ability to achieve profitable operations. These financial statements do not reflect any adjustments to the carrying values of assets and liabilities and the reported amounts of expenses and classifications on the statement of financial position that would be necessary if the going concern assumption was not appropriate.

4. BIOLOGICAL ASSETS

The Company's biological assets consist of cannabis plants. A reconciliation of the beginning and ending balances of biological assets for the six months ended June 30, 2021, and year ended December 31, 2020 is as follows:

	June 30, 2021	December 31, 2020
Balance at beginning of period	\$ 1,914	\$ 3,845
Cost incurred until harvest	5,721	6,856
Biological assets reserve	-	(180)
Effect of unrealized change in fair value of biological assets	5,655	17,516
Transferred to inventory upon harvest	(10,795)	(26,123)
Balance at end of period	\$ 2,495	\$ 1,914

As of June 30, 2021, all biological assets were live plants.

The Company measures its biological assets at their fair value less costs to sell. This is determined using a model which estimates the expected harvest yield in grams for plants currently being cultivated, and then adjusts that amount for the expected selling price less costs to sell per gram.

The fair value measurements for biological assets have been categorized as Level 3 in the IFRS 13 fair values hierarchy as there is no actively traded commodity market for plants or dried product. The significant unobservable inputs used to assess the fair value of biological assets during the six months ended June 30, 2021, and the year ended December 31, 2020, used the following assumptions:

- (a) Expected yields of the average grams of dried flower and trim per plant of 22 grams and 13 grams, respectively.
- (b) Weighted average number of growing weeks completed as percentage of total growing weeks at the period end of 43% and 50%, respectively.
- (c) Expected weighted average selling price in the retail market of \$13.12 per gram and \$10.81 per gram, respectively.
- (d) Estimated weighted average costs to complete, sell, and estimated margin from post-harvest activities of \$8.82 per gram and \$6.29 per gram, respectively.
- (e) Expected loss of plants until harvest of 24% and 25%, respectively.

These estimates are subject to volatility in market prices and a number of uncontrollable factors, which could significantly affect the fair value of biological assets which will affect the amount reflected in the gain or loss on biological assets in future periods.

The Company's method of accounting for biological assets attributes value accretion on a straight-line basis throughout the life of the biological asset from initial cloning to the point of harvest.

The Company has quantified the sensitivity of the unobservable inputs in relation to the biological assets for the six months ended June 30, 2021, and the year ended December 31, 2020, and determined the following:

- (a) A 10% increase or decrease on the expected yield of dry flower and trim per plant would increase or decrease the fair value of biological assets by \$249 and \$191, respectively.

4. BIOLOGICAL ASSETS (Continued)

- (b) A 10% increase or decrease on the weighted average of growing weeks completed as a percentage of total estimated growing weeks would increase or decrease the fair value of biological assets by \$249 and \$191, respectively.
- (c) A 10% increase or decrease in the expected selling price per gram of dried flower or trim would increase or decrease the fair value of biological assets by \$253 and \$94, respectively.
- (d) A 10% increase or decrease in the expected costs to complete and sell per gram would increase or decrease the fair value of biological assets by \$55 and \$77, respectively.
- (e) A 10% increase or decrease on the expected loss of plants until harvest would increase or decrease the fair value of biological assets by \$43 and \$33, respectively.

The Company estimates the harvest yields for cannabis at various stages of growth. As of June 30, 2021, it is expected that the Company's biological assets will yield approximately 912,234 grams of dry cannabis when harvested.

As of June 30, 2021, and December 31, 2020, the Company had 55,075 and 85,268 plants that were classified as biological assets, respectively.

During the three and six months ended June 30, 2021, and 2020, the Company recorded an allowance of \$0 to reflect net realizable value adjustments related to its Texas biological assets. As of June 30, 2021, and December 31, 2020, biological assets reserve was \$180.

5. NOTE RECEIVABLE

In connection with the Company's agreement entered in October 2018 with Green Standard Holdings LLC, Green Standard Cultivation LLC and Green Standard, Inc. (collectively, "Green Standard" or "GSI") to acquire the assets of Green Standard (see Notes 10 and 16 o.), the Company entered into a line of credit note with Green Standard, Inc. ("Green Standard Note"), pursuant to which the Company agreed to make advances to Green Standard in connection with the Michigan cultivation and operational expenses in an aggregate principal amount not to exceed at any one time outstanding balance of \$14,700.

The Green Standard Note, bears interest of 2.7% per annum and is payable no later than the earlier of 3 years from the Green Standard Note issuance date or earlier, based on certain triggering events.

On May 19, 2020, the Company amended the terms of the Green Standard note to reduce the principal amount available not to exceed at any one-time outstanding balances of \$7,500 and to increase the interest rate to 5% per annum.

The expected loss rate is based on the likelihood of the completion of the acquisition of GSI, the recovery of the note receivable amount against the expected GSI net profit, and any historical credit losses experienced within the period. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability to settle the note receivable. The note receivable was considered to have low credit risk, and the loss allowance recognized during the year was therefore limited to 12 months' expected losses. Management considered an equivalent CCC rating for the note receivable.

During the six months ended June 30, 2021, and the year ended December 31, 2020, the Company recorded expected credit loss adjustment of \$0 and \$1,286, respectively, related to the Note Receivable.

Interest income for the three and six months ended June 30, 2021, was \$70 and \$133, respectively. Interest income for the three and six months ended June 30, 2020, was \$43 and \$64, respectively.

Fluent Servicing Acquisition

In connection with the acquisition of the remaining interest of Fluent Servicing on August 15, 2018, the Company issued 4,400,000 membership interest of Cansortium Holdings LLC that were exchanged into 4,400,000 of shares of Cansortium subject to a price floor of \$2.75 ("Equity Price Guarantee"), expiring on March 21, 2021.

On January 16, 2020, the Company completed the restructuring of its existing promissory note issued in connection with the acquisition of Fluent Servicing (see Note 14 (b)), as well as the terms pertaining to the Equity Price Guarantee, reducing the price floor from \$2.75 to \$0.65 per share for the 4,400,000 common shares originally issued and agreeing to transfer to the seller an additional 14,215,385 common shares (or equivalent proportionate voting shares) that were previously returned by the Company's founders, subject to a price floor of \$0.65 per share.

The Company used a Monte-Carlo simulation model to estimate fair value of the Equity Price Guarantee derivative liability. This is a Level 3 recurring fair value measurement. The key Level 3 inputs used by management to determine the fair value are the expected future volatility in the price of the Company's shares and the expected life of the Equity Price Guarantee. The Company believes that a 1 % difference in the inputs used for this fair value measurement would not cause a material difference to the fair value amount.

On May 6, 2021, the Company satisfied its obligations under the Amended Note payable dated January 16, 2020 in the principal amount of \$12,933 to Can Endeavour LLC ("Can Endeavour"). Pursuant to the terms Can Endeavour elected to convert the principal amount of the Promissory Note into 21,555,483 common shares of the Company at \$0.60 per share. The common shares have been issued by the Company to Can Endeavour and all accrued interest on the Promissory Note has been repaid in cash. Accordingly, the Company has satisfied its obligations under the Promissory Note, extinguishing the Equity Price Guarantee.

Green Standard

In connection with the agreement to buy the shares of Green Standard performed on October 5, 2018, (see Note 16 o.) and amended on January 1, 2019, the Company issued 2,727,273 of shares of Cansortium Inc. valued at \$2.75 dollars per unit and subject to a price floor of \$2.75 ("GSI Equity Price Guarantee"). The agreement was amended and restated on May 19, 2020, to, among other things, eliminate the GSI Equity Price Guarantee.

The Company used a Monte-Carlo simulation model to estimate fair value of the Equity Price Guarantee derivative liability. This is a Level 3 recurring fair value measurement. The key Level 3 inputs used by management to determine the fair value are the expected future volatility in the price of the Company's shares and the expected life of the GSI Equity Price Guarantee and recorded the fair value of the derivative liability of \$2,597 in the consolidated statement of operations at issuance date. The Company believes that a 1% difference in the inputs used for this fair value measurement would not cause a material difference to the fair value amount.

The following range of assumptions were used to value the GSI Equity Price Guarantee derivative liability during the period ended May 21, 2020:

	May 21, 2020
Volatility	100.00%
Risk-free interest rate	0.17%
Expected life (years)	0.61 years

18. COMMITMENTS AND CONTINGENCIES

(a) Office and Other Leases

The Company leases certain business facilities from third parties under lease agreements that specify minimum rentals. The leases expire through 2032 and contain certain renewal provisions. Future minimum lease payments under non-cancelable operating leases having an initial or remaining term of more than one year are as follows:

For the twelve months period ending June 30,	Scheduled payments
2022	\$ 4,597
2023	4,719
2024	4,778
2025	4,554
2026	4,308
Thereafter	11,436
Total future minimum lease payments	\$ 34,392

(b) Contingencies

The Company's operations are subject to a variety of local and state regulation. Failure to comply with one or more of those regulations could result in fines, restrictions on its operations, or losses of permits that could result in the Company ceasing operations. While management of the Company believes that the Company is in compliance with applicable local and state regulation as of June 30, 2021, medical marijuana regulations continue to evolve and are subject to differing interpretations. As a result, the Company may be subject to regulatory fines, penalties, or restrictions in the future.

(c) Claims and Litigation

From time to time, the Company may be involved in litigation relating to claims arising out of operations in the normal course of business. As of June 30, 2021, there were no pending or threatened lawsuits that could reasonably be expected to have a material effect on the results of the Company's operations, except for the claims disclosed below. There are also no proceedings in which any of the Company's directors, officers or affiliates is an adverse party or has a material interest adverse to the Company's interest, except for the claims disclosed below.

On September 3, 2019, the Company and Cansortium Inc., along with certain executives of the Company, were sued in Florida by Querrey Group, LLC, et al., wherein Querrey alleges, among other claims, breach of its consulting contract with Cansortium Inc, LLC and seeks approximately \$2,100 in damages. The Company denies the allegations set forth in the complaint and is vigorously defending itself. At this early stage of proceedings, the Company is unable to provide an evaluation of the likelihood that a loss will be incurred or an estimate of the amounts or range of possible loss.

On April 26, 2021, MXY Holdings, LLC and its affiliates (collectively "MXY") filed suit in Florida claiming breach by the Company of the Management Services Agreement ("MSA") in an amount not less than \$2,500. The terms of the MSA provided MXY with a fee for management consulting services, which services were supposed to include the creation and implementation of management plans and solutions, the provision of MXY personnel with industry expertise, and intellectual property. MXY's refusal or inability to materially deliver on its obligations prompted the Company to consider termination of the MSA and the Company sent MXY a default notice on July 8, 2020.

20. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

Financial Instruments

The Company's financial instruments consist of cash and cash equivalents, note receivable, accounts payable and accrued liabilities, derivative liability, lease obligations and notes payable.

Financial Assets

- (i) Cash is comprised of deposits held in financial institutions and cash on hand.

Financial Liabilities

- (i) Loans are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognized initially at fair value and subsequently on an amortized cost basis using the effective interest method, less any impairment losses. They are included in current assets, except for maturities greater than 12 months after the end of the reporting period, which are classified as non-current assets.
- (ii) Compound financial instruments issued by the Company comprise convertible notes payable that are convertible to share capital at either the option of the holder or upon consummation of a qualifying go-public transaction. The liability component of the compound financial instruments is initially recognized as the difference between the fair value of the derivative liability (i.e., conversion feature) and the fair value of the convertible notes payable. Subsequent to initial recognition, the liability component of a compound financial instrument is measured at amortized cost using the effective interest method and the derivative liability is re-measured with subsequent changes in fair market value.
- (iii) Other financial liabilities include the Company's accounts payable and accrued expenses, notes payable and lease obligations. The effective interest method is used to calculate the amortized cost of a financial liability and allocates interest income over the corresponding period. The effective interest rate is the rate that is used to discount estimated future cash receipts or payments over the expected life of the financial asset or liability.

Financial instruments recorded at fair value are classified using a fair value hierarchy that reflects the significance of the inputs to fair value measurements. The three levels of hierarchy are:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly; and

Level 3 – Inputs for the asset or liability that are not based on observable market data.

There have been no transfers between fair value levels during the year.

FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (Continued)****Financial Risk Management**

The Company is exposed in varying degrees to a variety of financial instrument related risks. The Board mitigates these risks by assessing, monitoring, and approving the Company's risk management processes:

(a) Credit Risk

Credit risk is the risk of a potential loss to the Company if a customer or third party to a financial instrument fails to meet its contractual obligations. The maximum credit exposure as of June 30, 2021 is the carrying amount of cash, accounts receivable and note receivable. All cash is placed with major U.S. financial institutions. Credit risk from due from accounts receivable and note receivable arises from the possibility that amounts due become uncollectible.

In addition to the commitments outlined in Note 18, the Company had the following contractual obligations as of June 30, 2021:

	<u>< 1 year</u>	<u>1 to 3 years</u>	<u>3 to 5 years</u>	<u>> 5 years</u>	<u>Total</u>
Accounts payable	\$ 4,530	\$ -	\$ -	\$ -	\$ 4,530
Accrued liabilities	\$ 6,834	\$ -	\$ -	\$ -	\$ 6,834
Notes payable	\$ 375	\$ 559	\$ 71,016	\$ -	\$ 71,950
Lease obligations	\$ 2,181	\$ 5,485	\$ 6,142	\$ 9,262	\$ 23,070

In addition to the commitments outlined in Note 18, the Company had the following contractual obligations as of December 31, 2020:

	<u>< 1 year</u>	<u>1 to 3 years</u>	<u>3 to 5 years</u>	<u>> 5 years</u>	<u>Total</u>
Accounts payable	\$ 4,808	\$ -	\$ -	\$ -	\$ 4,808
Accrued liabilities	\$ 7,614	\$ -	\$ -	\$ -	\$ 7,614
Notes payable	\$ 38,583	\$ 13,161	\$ 21	\$ -	\$ 51,765
Lease obligations	\$ 1,894	\$ 4,993	\$ 5,860	\$ 9,959	\$ 22,705

(b) Market Risk*(i) Price Risk*

Price risk is the risk of variability in fair value due to movements in equity or market prices.

20. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (Continued)

(b) Market Risk (Continued)

(i) Currency Risk

The consolidated operating results and consolidated financial position of the Company are reported in U.S. dollars. Some of the Company's financial transactions are denominated in currencies other than the U.S. dollar. The results of the Company's operations are subject to currency transaction and translation risks.

As of June 30, 2021, and 2020, the Company had no hedging agreements in place with respect to foreign exchange rates. The Company has not entered into any agreements or purchased any instruments to hedge possible currency risks at this time.

(ii) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's financial debts have fixed rates of interest and therefore expose the Company to a limited interest rate fair value risk.

(c) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations associated with financial liabilities. The Company manages liquidity risk through the management of its capital structure. The Company's approach to managing liquidity is to ensure that it will have sufficient liquidity to settle obligations and liabilities when due.

(d) Banking Risk

Notwithstanding that most of the states have legalized medical marijuana, there has been no change in U.S. federal banking laws related to the deposit and holding of funds derived from activities related to the marijuana industry. Given that U.S. federal law provides that the production and possession of cannabis is illegal, there is a strong argument that banks cannot accept for deposit funds from businesses involved with the marijuana industry. Consequently, businesses involved in the marijuana industry often have difficulty accessing the U.S. banking system and traditional financing sources. The inability to open bank accounts with certain institutions may make it difficult to operate the businesses of the Company and leaves their cash holdings vulnerable.

(e) Asset Forfeiture Risk

Because the cannabis industry remains illegal under U.S. federal law, any property owned by participants in the cannabis industry which are either used in the course of conducting such business, or are the proceeds of such business, could be subject to seizure by law enforcement and subsequent civil asset forfeiture. Even if the owner of the property was never charged with a crime, the property in question could still be seized and subject to an administrative proceeding by which, with minimal due process, it could be subject to forfeiture.
